[What Will We Be Discussing?](#)

This agenda for this weekly one hour session will be structured to allow participants to;

- Overview of H1N1 activity worldwide since the previous meeting.
- Receive a FirstWatch Sit Rep on current H1N1 activity profiles from their international clients.
- Participate in a Cross Canada Sit Rep describing significant H1N1 activities of the previous week and concerns being anticipated for the upcoming week.
- Contribute to discussions regarding their work or experience in a featured area of H1N1 management so attendees can ‘harvest best practices’
- Engage in Q&A session for attendees to discuss specific questions generated by the session.
- Listen to guest speakers on selected topics.

[Who will be speaking?](#)

This session will be facilitated by Michael McKeage Director of Clinical Development and Disaster Planning for EHS Nova Scotia. Michael has previously facilitated our spring teleconference sessions on the H1N1 outbreak and the EMSCC SARS Teleconference series of 2006.

As these sessions will be focused on ‘Sharing Solutions’ and experiences related to the management of the current H1N1 Pandemic amongst Canadian EHS agencies, the teleconference participants will be expected do the ‘speaking’. International guests and organizations will be invited to share their experiences as well.

How Does this Session Relate to Advancing and Aligning EMS in Canada and Your Service's Future?

Given the diversity of the EHS services in Canada and the challenges each could experience in the flu season of 2009, the sharing of solutions and experiences, as we prepare for and subsequently manage the H1N1 event of 2009 will ultimately allow us to deal with issues in a more efficient manner.
